CENTER *for* BIOLOGICAL DIVERSITY

*Because life is good.*

Dear [Your City] City Council,

I support resolution [_], which calls for a ban on new drilling and fracking in federal and state waters off the California coast, as well as no new oil and gas leasing anywhere that is currently off-limits (the Pacific, Atlantic, Arctic, and Eastern Gulf of Mexico). Offshore drilling and fracking are dangerous and dirty practices that pollute our water and air, drench our beaches in oil, and wreck our climate. They have no place in our ocean.
